STRIKING MINERS FEAR A STAMPEDE

Take to Marching in the
Lattimer and Hazleton
Districts.

MEN STAND FIRM TODAY

Offer of Ten Per Cent, Advance
is Rejected by the Strike
Leaders.

SETTLEMENT IS VERY LIKELY

Hazleton, Pa., Oct. 1. [Special Telegram]—Marches were the order of today. The miners are making a desperate effort to prevent a stampede to the mines.

Five hundred of them gathered near Lattimer and marched to the town. They were met by sheriff Harvey and one hundred deputies who commanded them to stop. The miners demanded the right of the highway and shouted that they were unarmed and with raised hands marched through the line of officers to the town, calling upon the miners not to work.

Three times was this move repeated and then the line started for Jeddo.

The Lattimer mines were opened, only a few men went to work.

Marches were also made to Jeddore, Cranberry, Caadale, Panther Creek, Laurel Hill and half a dozen other places. They effectively offset the ten per cent advance notices and the colliers remained idle.

Offer of the Operators

Philadelphia, Oct. 1.—The movement begun by the coal operators looking to a settlement of the strike took definite form this morning in the posting at all of the fifty nine collieries of the Philadelphia and Reading Coal and Iron company of the following notice:

"This company will pay an advance of 10 per cent on the wages of all men and boys employed in its collieries. This advance takes effect today."

It is expected that by tomorrow notices will be posted at every colliery in the anthracite region announcing a 10 per cent increase in wages based on the present scale, effective Oct. 1, and that the operators will arbitrate anew grievances his employees may present.

There is no condition to be attached as to the men returning to work before the arbitration shall begin, so it is to be inferred that the men are privileged to meet in convention and adopt any plan of action they may deem advisable before entering upon arbitration.

Mitchell is Defeat

What President Mitchell's first move will be in view of this new phase of the situation is not known.

"The operators are evidently not taking me into consideration," said the strike leader tody, "but they will wish they had. The strike will not be declared off today; neither will tomorrow see the end of this great labor struggle. I believe that before the present week is out the miners will have gained a great victory. But I want to say right now, that the men will not return to work unless every miner in the anthracite region is included as a beneficiary of the terms of settlement. The United Mine Workers will not agree to return to work unless every mine worker in the region is benefited by the adjustment."

President Mitchell Says No.

Hazleton, Pa., Oct. 1. [Special Telegram]—President Mitchell this morning stated positively that the strike is no nearer a settlement than it was a week ago. The mine workers have no official knowledge of any offer of a ten per cent raise or any other conditions.

Further, he said this strike cannot be settled by a general delegate meeting of all the miners of the anthracite region. The miners don't insist upon the recognition of the union though they would be glad to have it.

Operators Feel They Are Beaten.

Wilkesbarre, Oct. 11. [Special Telegram]—The first general conference of the operators to discuss the strike question was held this afternoon here. Both the railroad and individual operators of all the three districts will be represented. The entire ground will be gone over.

The calling of this conference is practically an admission by the operators that they are beaten and must make terms of settlement. It is the most significant move since the beginning of the strike. If the companies agree to the plan of arbitration a convention of miners will be called at Scranton.

Teacher Will Talk Shop.

President Charles F. Thwing of Western Reserve University, Cleveland, will deliver a course of lectures at the University of Virginia on "The American University."

WOODFORD TALKS OF SPAIN.

Ex-Minister Says Spain Has Great Natural Resources.

Chicago, Oct. 1.—Stewart L. Woodford, ex-minister of the United States to Spain, is in Chicago with his bride on their wedding trip. Mr. and Mrs. Woodford will go as far west as Denver before returning to their home in New York. They will remain in Chicago several days.

In commenting upon the likelihood of the Spanish cortex voting a large sum for increasing the navy of that country Mr. Woodford said: "I believe that Spain would do much better to vote the money for the construction of a system of canals. Spain is the richest undeveloped country in Europe today; its natural resources are vast, and all that is needed to develop them is a better system of transportation and communication. The war with this country was a veritable godsend to Spain. The country was neglecting its own resources that lay at its very doors and exploiting the colonies. The day that war was declared between the two countries was the beginning of a new era for Spain, and the day that its colonies were wrested from it Spain entered upon a new career."

R. M. LA FOLLETTE IS IN GREAT DEMAND

Republican National Committee Wants
Him to Make Several Speeches in
Minnesota and Dakota.

Milwaukee, Oct. 1.—The republican national committee has asked the Wisconsin state central committee for the loan of Little Bolt for a few days. The national committee want him to go over into Minnesota and Dakota for a day or two or three and deliver a few speeches.

Gen. Bryant, the chairman of the state central committee, said this morning that in all probability Mr. La Follette would be sent to Minnesota for a short trip, but he could not say exactly when, inasmuch as his dates for the immediate present were all filled.

"Mr. La Follette's speech of acceptance was a masterful effort," said Gen. Bryant, "and attracted attention all over the country. That is why the national committee want to get hold of him for a few days. He is a great campaigner. The national committee asked for him once before but we couldn't let him go then."

INSTALL NEW SYSTEM

Secretary of State Will Now be Auditor
of All the State Accounts—
400 Blanks Prepared.

Madison, Wis., Oct. 1.—The new state bookkeeping system, adopted by the last legislature which makes the secretary of state auditor of all state accounts, including those of the state university, normal regents, board of control and like bodies, as well as all the state departments, goes into effect today.

In all nearly 400 blanks have been prepared by the state printing clerk to meet the requirements of the new system. The work will add considerably to the labors of the clerical force in the state department but the law provides for no additional help and the present force will undertake the work, some of the other clerks assisting the bookkeeper.

No one, Secretary Froelich says, has made any material objection to the new system. Some objection was raised in the case of the University regents and the normal school regents as they are incorporated under special laws, causing a conflict and there are some points which will be adjusted by the next legislature.

DECLARE WAR ON NEW YORK POLICE

Bishop Potter at the Head of An Allied
Church Attack on the Blackmail
System.

New York, Oct. 1.—For the first time in the history of the Police department is now face to face in a fight with the united churches of New York City. Bishop Potter heads this formidable movement. Allied with him and other prominent clergymen of the Protestant Episcopal church are: Dr. Parkhurst, representing a great body of Presbyterians, and whose crusade against vice a few years ago is still fresh in the memory of New Yorkers; Father Healey of the Roman Catholic church, an energetic and influential priest; many Jewish rabbis, the heads of numerous congregations; and the societies for the suppression of vice and the promotion of good government.

This, as the Rev. Dr. Paddock of the Pro-Cathedral says, is not a crusade of purists. It is the concerted action of practical and business-like individuals who are determined to put an end to the system of police blackmail by which nearly \$5,000,000 are annually exacted from law breakers for the privilege of robbing, swindling, sandbagging, and cheating with impunity.

ROBERTS IS MADE CHIEF OF THE ARMY

TO COMMAND ALL THE FORCES OF GREAT BRITAIN.

Successor to Lord Wolseley Has Won
His Spurs in India and South Africa.
Gen. Buller Is Now the Senior Officer
in Africa—Roberts Will Inaugurate
War Office Reforms.

London, Oct. 1.—It is officially announced that Lord Roberts has been appointed commander in chief of the British army.

Although the fact that the appointment has been made was already known, the formal announcement is hailed by the unionist party as a welcome pledge that the army reorganization will be carried out in the most effective manner.

It was beginning to be recognized that something was needed to give strength to the unionist campaign. Accordingly semi-official announcements are out that Mr. George Wyndham, parliamentary under-secretary of state for war, in his speech at Derby this evening, will outline the government's scheme of army reforms, and that the office is arranging with Lord Roberts for the return of a large portion of the army in South Africa.

Clever Political Maneuver

The appointment of Lord Wolseley to succeed Lord Roberts to command in chief of the British army had all along been expected, but the official announcement, made last night, can only be regarded, in view of the general election, as a clever political maneuver.

With Lord Roberts as commander in chief the question of appointing a new secretary of war will be reduced in importance, as the very fact of the hero of the South African campaign, being in supreme command of the military forces, will in itself be a guaranty of war office reforms.

Promotion for Buller

Lord Wolseley, it is well known could, two or three years ago, have had the governor generalship of Canada, but on account of the exigencies of military affairs at the time, he did not see his way to resign the commandership in chief. Had he done so the appointment would have gone to the Duke of Connaught. Now, however, the queen's son will have to be contented with his present office of commander of the forces in Ireland.

General Buller should succeed Lord Roberts in South Africa. He will be the senior officer there when the field marshal leaves, and there are several others who rank before Kitchener.

MANY DEMANDS FOR
HANNA TO SPEAK

Republican Chairman Arrives in Chicago
From New York—He is Pleased
With the Outlook.

Chicago, Oct. 1.—Senator Hanna arrived in Chicago this morning to remain in charge of the republican national headquarters until after election, excepting for a visit to New York about the middle of this month. He will return to Chicago after this visit to remain at headquarters possibly making one or two short Western speaking trips.

Wee Senator Hanna to accept all the requests for speeches which have been made of him he would have nothing else to do but just talk between now and election. There was a mass of mail awaiting him asking him to come to as many places as there are letters, and Committeeeman Green of South Dakota arrived in the city last evening in order to be the first to make a personal demand on the senator to go to his state.

Mr. Hanna while in Cleveland yesterday, said he was pleased with the outlook in New York where things were looking much better than a month ago.

Referring to his recent interview, in which he was quoted as saying Mr. Bryan had promised to let Richard Croker name one of the members of his cabinet if elected, Senator Hanna said:

"I have never denied that interview. In fact what I said about Croker and a cabinet position has been substantiated during the last week. I knew what I was talking about when I said that Bryan had promised Croker the naming of one of the cabinet officers.

"I know that Bryan has promised to let Croker distribute the federal patronage in New York, and if Bryan is elected Croker can put former Senator Edward Murphy in Bryan's cabinet."

THREE BOYS DROWN AT WEST SUPERIOR

Disaster Overtakes a Party of Seven
While Playing in an Old
Boat in the Bay.

West Superior, Wis., Oct. 1.—Three boys drowned in the bay last night while playing in an old boat which capsized. The dead boys are two Rustell brothers and a lad named Hinckley. These three, with four others, were in the boat and when thrown into the water three went down and four were rescued. Their ages range from ten to fifteen years.

MARQUIS ITO NAMED PREMIER OF JAPAN

HE WILL COPE WITH THE SITUATION IN CHINA.

He is Fitted For the Work He Has
Been Appointed to Do—Foremost
Soldier and Scholar of the Flowering
Kingdom Is Likely to Vex the
Russians.

Yokohama, Oct. 1.—The mikado has summoned Marquis Ito to form a cabinet on the resignation of the Yamagata ministry.

When intrusting the task to the new premier his majesty said that as affairs in China were entering upon the diplomatic stage, the presence of Marquis Ito at the head of the government was necessary.

Well Fitted For His Work.

Washington, Oct. 1.—Marquis Ito, who will form a new ministry for the Mikado of Japan, is especially well fitted for his task. He is a soldier of exceptional courage and resourcefulness and a statesman of the first class. He has been styled the "Bismarck of Japan," and the title is very apt.

Count Hirobumi Ito represents the progressive element of Japan. He has traveled all over the world, studying constitutions and parliaments, and incidentally picking up what he could regarding the arts of successful warfare. He is an enthusiastic admirer of the United States and its political and industrial institutions.

The extreme significance of his appointment to the head of affairs at this critical stage in China becomes more apparent when it is understood that he is an implacable foe of Russia and bitterly opposed to any acquisition of territory by the czar.

Gave Him an Opportunity

Marquis Ito came prominently to the front during the Chino-Japanese war. He was the big admiral of the Japanese navy and fought the memorable battle of Sept. 7, 1894, defeating the entire Chinese fleet of twelve vessels, and saving all of his own boats, with one exception, from injury.

After the war was over he was chosen to make terms with Li Hung Chang, admittedly the most adroit statesman of the Orient. It was at this stage of the game that Russia began to interfere, robbing Japan of the fruits of her victory. Ito has not forgotten the part Russia took at that time, and this thought will likely be uppermost in his attitude in China.

People of the United States have a kindly remembrance of Count Ito, and those who met him during his visit to this country in 1868 have confidence in his ability to cope with the present situation. From his youth Ito has had the reputation of being clever and bright.

BRYAN FINISHING MINNESOTA TRIP

Spent Sunday at Duluth—First Speech
Today at Superior—Winds Up
at St. Paul Tonight.

Duluth, Minn., Oct. 1.—Colonel W. J. Bryan arrived here early yesterday morning and spent the day as a guest of State Senator Baldwin, an old classmate at college. He attended service at the Pilgrim Congregational church and listened to a sermon by the Rev. Alexander Milne, the pastor.

Mr. Bryan spent last night at West Superior, across the St. Louis river, in Wisconsin, and he made the first speech of the day in that city this morning at 7:30 o'clock.

After that speech he returned to West Duluth at 9 o'clock.

The other points at which speeches are to be made during the day are in Minneapolis, and are Carlton, Hinckley, Pine City, Rush City, North Branch, Stillwater, White Bear, St. Paul, and Minneapolis. The two last mentioned places will be visited at night.

WANTS POST AND LASH.

Whippings for Wife Beaters Recommended in Philadelphia.

Philadelphia, Pa., Oct. 1.—Whipping posts for wife beaters may be reintroduced in Philadelphia. The grand jury for the September term urges this means of corporal punishment, and its recommendation will be taken up by the judges of the criminal courts.

"During the sessions 750 presentations were acted on," says the grand jury report. "Of these about 5 per cent were cases of wife beating, which leads us to the conclusion that abolishing corporal punishment and substituting penal servitude does not deter the brutal husbands from inflicting terrible wounds and disfiguring the countenances of their helpless wives, as we have witnessed during our sessions."

"Such being the case, we are unanimously of the opinion that the restoration of the whipping post is the proper remedy."

In this connection we are also of the opinion that the sending of boys, except in the case of the old offenders, to the Home of Refuge or the Reformatory does not operate for the benefit of society, but rather the reverse. In our opinion discharge with a caution for a first offense and birching by a prison warden for a second and third offenses would be better."

"Substitutes Mustard for Electricity." A street faker in Kenton, Kan., did a thriving business selling electric belts until someone examined one of them. Then it was found that beneath a strip of gauze was a layer of dry mustard. When the wearer perished a little the mustard was moistened and set up a burning sensation and the deluded victim believed a current of electricity was passing through him. Before all this was discovered, however, the faker had smelled danger and was on his way to another guilty neighborhood.

CORBETT BACK TO HIS WIFE

And the Contemplated Divorce Will Not Be Asked.

New York, Oct. 1.—James J. Corbett returned yesterday from Europe and he and his wife have forgiven each other and the contemplated divorce suit will not be brought by Mrs. Corbett. The ex-champion prize fighter says he will face all charges of crookedness which were made after his fight with McCay. He also says that he and Considine are friends again.

TO MAKE AN ATTACK ON GENERAL APATHY

**BOOM IN SIGHT FOR POLITICS
IN COUNTY OF ROCK.**

Gov. Shaw Will Speak Oct. 17—La Follette Coming Soon After—Republican Club to be Organized Tonight—Roosevelt at Belvidere Will Draw Big Crowd From Here.

Politics in Janesville and Rock county has been very quiet, but there is a boom in sight now. The public are beginning to wake up to the importance of the contest to be decided in November, and the probabilities are that from now on the campaign will begin to heat up.

Rock county is certain to give its old time majority for the republican ticket from president to coroner. There is not a sign of any dissatisfaction in any quarter. With a strong county and state ticket the party is assured of the usual victory, and this accounts for the apathy that has prevailed up to the present time. But now the boys are waking up, and there will be some work done.

The democrats are credited with being out on the still hunt, especially on the county ticket, and they are in hopes that their opponents would make no active campaign. But in this they will be disappointed. Rock county this fall aims to become the banner republican county in the state, and no effort will be neglected to roll up the largest majority ever polled here.

Gov. Shaw on October 17.

Chairman T. S. Nolan of the Rock county republican committee has received word that Leslie M. Shaw, governor of the state of Iowa, one of the brightest political speakers in the country, would be in this city on the evening of October 17, and will address the public probably at the Myers Grand opera house.

Next week Assistant Attorney General of Wisconsin, Charles Buell, will make a campaign of the towns of Rock county outside of Janesville, and will endeavor to arouse the republicans in those districts. Mr. Buell is a pleasant speaker and it is well worth the time of any man in the county to attend his meetings and hear what he has to say on the live issues of the day.

La Follette is Coming

Robert M. La Follette, the republican nominee for governor of the state of Wisconsin, will visit the city, in the near future and address the voters of this city and the surrounding country. The date of his coming has not yet been fixed, but it will be announced far enough ahead so that arrangements can be made to give Mr. La Follette a rousing reception.

A meeting will be held at the office of Justice Earle in the Sutherland block, this evening at 7:30 p.m. for the purpose of organizing a republican club. All republicans of Janesville and vicinity are urgently requested to be present.

Roosevelt at Belvidere

Theodore Roosevelt will speak at Belvidere, Ill., on Saturday evening Oct. 6, and a great many republicans from southern Wisconsin are expected to attend. Senators Hanna, Culom and Judge Yates will also speak and the meeting is attracting a great deal of interest up this way. An attempt will be started tonight to gather a large delegation in Rock county to attend this meeting. A special rate will be secured on and it is hoped to get a crowd of from 200 to 300 to make the trip.

**ROOSEVELT DAY
AT BELVIDERE**

Belvidere will welcome Gov. Roosevelt at 8 p.m. on Saturday, October 6. Arrangements are under way to make the reception the most notable and largest ever held in Northern Illinois. It is expected that over 30,000 visitors will be present. Senator Hanna, Senator Culom and Dick Yates will be among the speakers.

PLEASANT FAMILY REUNION

Dr. and Mrs. E. H. Dudley Entertained a Large Family Yesterday.

A pleasant family reunion was held at the home of Dr. and Mrs. E. H. Dudley

A STOMACH REMEDY

should be judged by its merits. That which cures, and has for half a century, deserves the highest praise. Such a remedy is Hostetter's Stomach Bitters. It should be taken for INDIGESTION, CONSTIPATION, DYSPEPSIA, BELIUSNESS, NEUROSTNESS, OR MALARIA, FEVER AND AGUE, where no medicine is known to science which will do so much good. It is a safe remedy. A trial will certainly convince you. Our PRIVATE REVENGE STAMP covers the neck of the bottle.

HOSTETTER'S STOMACH BITTERS

on North High street yesterday. Fourteen members of the family gathered around the table to celebrate the reunion. Dr. and Mrs. Dudley have four children all of whom are married and each one has a child. Those present included Dr. and Mrs. E. H. Dudley, Mr. and Mrs. S. O. Dudley and son Orville, of Chicago; Mr. and Mrs. E. H. Dudley, Jr., and son Perry, of Chicago; Mr. and Mrs. D. A. Dudley and daughter Lillian, of Chicago; and Mr. and Mrs. M. A. Heath and son John, of Evanston, Ill. After dinner the day being a perfect one the family took a trip up the river in Dr. Dudley's launch which was one thoroughly enjoyed by all the party.

POULTRY CAR IS A NOVELTY IN ITS LINE

Attached to a Freight Train It Contained Between 4,000 and 5,000 Chickens.

A poultry car containing between four and five thousand live chickens was attached to a freight on the C. & N. W. R. R. this morning. The car is a novelty in its line. It is divided off into partitions the width of the car and just high enough to allow the chickens to stand up. Each partition is fitted with a water and feed trough which can be reached by the man in attendance. It is a palace poultry car and a great improvement over the old way of shipping in crates. The consignment was from Rogers and Smith of Humboldt, Iowa, and was consigned to poultry merchants on South Water street, Chicago.

During the winter of 1897 Mr. James Reed, one of the leading citizens and merchants of Clay, Clay Co., W. Va., stuck his leg against a cake of ice in such a manner as to bruise it severely.

It became very much swollen and pained him so badly that he could not walk without the aid of crutches. He was treated by physicians, also used several kinds of liniment and two and a half gallons of whisky in bathing it, but nothing gave any relief until he began using Chamberlain's Pain Balm. This brought almost a complete cure in a week's time and he believes that had he not used this remedy his leg would have to be amputated. Pain Balm is unequalled for sprains, bruises and rheumatism. For sale by Smith's pharmacy, opposite P. O., Kodak agents.

ROOMS AND BOARDING

Many People These Days Are Looking About the City

The opening of the fall season always brings with it a demand for suitable rooms and board. The prospects this year are better than ever and The Gazette "little ads" are directing many people to the homes of thoughtful advertisers. If you have rooms to rent we can rent them for you. Others receive successful results, why not you? Three lines three times for 25 cents.

On the 10th of December 1897, Rev. S. A. Donahoe pastor M E church; South Pt, Pleasant, W. Va., contracted a severe cold which was attended from the beginning by violent coughing. He says: "After resorting to a number of so called 'specifics' usually kept in the house, to no purpose, I purchased a bottle of Chamberlain's Cough Remedy, which acted like a charm. I most cheerfully recommend it to the public." For sale by Smith's Pharmacy next to post office, kodak agents.

James Gage Injured.

Milton, Juction, Oct. 1—James Gage the genial proprietor of the Morgan House is confined to his bed on account of an accident which occurred to him a few days ago. While lifting a heavy box from a car it slipped and grazed one of his shins, stripping the skin and flesh from a good part of the surface below the knee. He is improving slowly.

Automobiles Take Fruit to London.
In the county of Kent, England, it has long been usual for farmers to lose immense quantities of fruit for lack of railroad transportation. They now engage automobile cars, which they load in the evening and take to London during the night. The arrangement is working well and railroad officials are busy devising plans to head off what may develop into serious rivalry.

Stock Companies in Germany.
The organization of stock companies in Germany during the first half year 1900 has been as active as ever. No less than 164 stock companies were organized during that period, representing an aggregate capital of \$52,000,000.

PRESIDENT ADAMS HAS BEEN RETIRED

HEAD OF STATE UNIVERSITY GETS LEAVE OF ABSENCE

III Health Causes Board of Regents to Grant the Executive a Long Rest—He Will Make a Tour of the Mediterranean Country—Dean E. A. Birge Acting in His Stead.

Madison, Wis., Oct. 1.—President Charles Kendall Adams of the University of Wisconsin has been indefinitely retired on half pay by the Board of Regents.

Dr. Adams will go abroad for his health which has for the past two years, and will travel through the Mediterranean countries.

His length of retirement has not been fixed and he does not know who he will return. In his absence Dean E. A. Birge will act as president.

His Malady is Curable.

The Regents assert positively, as the result of close medical examinations, that Dr. Adams has no organic and incurable disease. They state that his malady is only functional and curable. It is confidently predicted that with freedom from care and a warm, equable climate, Dr. Adams' recovery will be complete.

President Adams has been in the educational harness for so many years that his friends feel that he has earned a long period of rest. His work in connection with Michigan University gave him prominence in the college world. Then he went to Cornell for seven years.

Mr. Adams Comes West.

In 1893 the West bid successfully for Dr. Adams' services and on Jan. 17 he was inaugurated as President of the University of Wisconsin.

There, under his direction, the university of the Badger State has experienced just such a growth as has made the universities of Michigan and of Illinois marked by the whole country. The universities of the three states have been in sharp competition and each has made a phenomenal record in point of increased attendance.

Dr. Adams had not confined himself wholly to university work. His name was familiar to readers of scientific and economic periodicals. Two of his recent publications are "A Plea for Scientific Agriculture" and "Higher Education in Germany."

Edward Asahel Birge.

Edward Asahel Birge, Ph. D., who will be acting president, was born September 7, 1851, at Troy, New York. He was graduated from Williams college in 1873 with the degree of Bachelor of Arts and received the degree of Master of Arts in 1876. He studied zoology in the Agassiz Museum of Comparative Zoology at Cambridge, Mass., until December, 1875. He received the degree of Ph. D. from Harvard university in 1878, and of Doctor of Science (honorary) from the Western University of Pennsylvania in 1893. He studied histology and physiology in the University of Leipzig, Germany, during the college years 1880-81. In 1875 he was elected instructor in natural history at the University of Wisconsin; in 1879 he was chosen professor of zoology, and in 1891 he received the additional office of dean of the College of Letters and Science.

He is secretary of the Wisconsin Commissioners of Fisheries and superintendent of the Wisconsin geological and natural history survey. His papers are on scientific subjects, mainly in the Archiv für physiologie, the Biologische Centralblatt, and the Transactions of the Wisconsin Academy of Sciences, Arts and Letters.

No one would ever be bothered with constipation if everyone knew how naturally and quickly Burdock Blood Biters regulate the stomach and bowels.

Cures croup, sore throat, pulmonary troubles—Monarch over pain of every sort. Dr. Thomas' Electric Oil.

It's a mistake to imagine that itching piles can't be cured; a mistake to suffer a day longer than you can help. Dr. Doan's Ointment brings instant relief and permanent cure. At any drug store, 50 cents.

A blessing alike to young and old; Dr. Fowler's Extract of Wild Strawberry nature's specific for dysentery, diarrhoea and summer complaint.

A Plague of Flies.

The Paris suburbs are suffering from a plague of flies, and the blame is laid on the people who slaughter the small birds all over France for the feather market.

ARE RESTING ON THEIR ARMS

Ready for Combat Should Agreement Fail.

SUCH IS THE STRIKE CRISIS.

No Recognition for Union—To Negotiate Through Committees of Employers—Soldiers Leave for Home—Strikers Take Temperance Pledge.

Hazleton, Pa., Oct. 1.—Despite the truce in the mining strike, which is believed by all to presage a peaceful settlement of the differences, both men and employers are resting on their arms and strengthening their positions, to be in readiness to continue the combat should the expected agreement fail. President Mitchell, although admitting that the proposal of the operators undoubtedly will be accepted, officially is firm as ever, and determined no break shall come until the entire body of miners is assured of the advance and other concessions. He is insistent that a convention representing every workingman shall act on the compromise, no man to return to work until the agreement is approved by all.

No Recognition for Union.

At every colliery in the anthracite region a notice will be posted to-morrow morning announcing a 10 per cent increase in wages based on the present scale, effective Oct. 1, and stating that the operators will arbitrate any grievances their employees may present. It is supposed the miners will come together as members of the union, fix the minimum of the concessions they will be content with, and then go forth as individuals to treat with their employers through committees of employees. The arbitrations being concluded satisfactorily, if they will be, the committees of employees will report back to the convention of United Mine Workers that they have come to a settlement and the strike will then be declared off.

Soldiers Are Ordered Home.
Shenandoah, Pa., Oct. 1.—General Goblin ordered the Twelfth regiment home, and the soldiers left here on a special train over the Philadelphia & Reading railway at 8 o'clock this morning. There was a parade of all the troops here Sunday, reviewed by General Goblin. The town was full of visitors.

Strikers Take Temperance Pledge.
Wilkesbarre, Pa., Oct. 1.—At St. John's church, Pittston, the Rev. Father Garvey, the pastor, administered the temperance pledge to 1,300 members of his congregation who are engaged in the strike. The pledge holds good as long as the strike lasts. At Holy Savior church in this city the Rev. Father Curran, the pastor, administered the temperance pledge to 800 men, who are strikers. In his sermon Father Curran advised the men to keep up their good record and do nothing to disturb the peace as long as the strike lasts.

Miners' Shanty Blows Up.
Hazleton, Pa., Oct. 1.—An attempt to blow up a shanty occupied by William Sheleola, a nonstriker, at Green Ridge, was made. Dynamite was used. No one was hurt and the house was only slightly damaged. Sheleola says strikers threatened to blow up his house if he continued at work. There is no clue to the identity of the guilty parties.

Discouraged

Men, who have suffered the tortures of dyspepsia, will find encouragement in the following letter. It points the way to certain help and almost certain cure. In ninety-eight cases out of every one hundred in which Dr. Pierce's Golden Medical Discovery is used the result is a perfect and permanent cure. "Golden Medical Discovery" cures diseases of the organs of digestion and nutrition, strengthens the stomach, purifies the blood, and nourishes the nerves. It has cured in hundreds of cases after all other medicines have utterly failed to give relief.

There is no alcohol contained in "Golden Medical Discovery," and it is entirely free from opium, cocaine, and all other narcotics.

"Your 'Golden Medical Discovery' has performed a wonderful cure," writes Mr. M. H. House, of Charleston, Franklin Co., Ark. "I had the worst case of dyspepsia I ever saw. After trying seven doctors and everything I could hear of, with no benefit, I tried Dr. Pierce's Golden Medical Discovery, and now I am cured."

Chronic dyspepsia may consult Dr. Pierce by letter free. Correspondence private. Address Dr. Pierce, Buffalo, N.Y.

Free. Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay cost of mailing only. Send 21 one-cent stamps for paper-covered book, or 31 stamps for cloth bound volume. Address as above.

Loubet's Banquet to May.
President Loubet recently gave a banquet and fete in Paris to the mayors of France and the French colonies. There are over 80,000 mayors in France, not including those in the colonies, and all were invited. A similar banquet was given by the late President Carnot at the time of the last previous exposition, and it brought together 15,000 mayors. This year a much larger number attended.

Good Qualities of Sugar.

Experiments by Professor Moss in the University of Genoa have shown that sugar administered after a period of starvation, or a long fast, restores vitality much more rapidly than bread does. The temperature of the body quickly increases with the administration of sugar.

SCOTT'S EMULSION

of cod-liver oil is the means of life and enjoyment of life to thousands: men women and children.

When appetite fails, it restores it. When food is a burden, it lifts the burden.

When you lose flesh, it brings the plumpness of health.

When work is hard and duty is heavy, it makes life bright.

It is the thin edge of the wedge; the thick end is food. But what is the use of food, when you hate it, and can't digest it?

Scott's emulsion of cod-liver oil is the food that makes you forget your stomach.

We'll send you a little to try, if you like.

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. Druggists sell the 50c size; price by mail, 10 cents. Test it and you are sure to continue the treatment.

Announcement.

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for *catarrah troubles*, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.

MAMMOTH ROOF GARDEN.

Oscar Hammerstein Plans to Use the Tops of His Two Theaters.

With the closing of the Casino and Venetian roof garden the other night the season of midair entertainment practically ended in New York. Both George W. Lederer and Oscar Hammerstein said that their business during the past season had been satisfactory.

Next summer Mr. Hammerstein will open a gigantic roof garden which will

cover the tops of the Victoria and new Republic theaters, making a mammoth aerial theater 100 feet wide and 200 feet long, with a seating capacity of 3,500, says the New York Journal. The entire roof will be inclosed, and it is the plan of Mr. Hammerstein to fit the roof garden with both a stage and a circus amphitheater. George W. Lederer also plans to alter the roof of the Casino theater, inclosing it with a device invented by an Englishman, so that in good weather the covering can be removed.

There is no alcohol contained in "Golden Medical Discovery," and it is entirely free from opium, cocaine, and all other narcotics.

MR. BRYAN'S WARNING

"If there is anyone who believes that the gold standard is a good thing, or that it must be maintained; I warn him not to cast his vote for me because I promise him it will not be maintained in this country longer than I am able to get rid of it."—Hon. William Jennings Bryan, Knoxville, Tenn., Sept. 16, 1896.

FLAGS IN BRYAN'S PROGRAM

New York Tribune.—The more it is studied, the more flaws appear in the "easy, honest and honorable solution of the Philippine question," which Colonel Bryan fathered in his Indianapolis acceptance speech. That solution was, in brief, to set up a stable form of government in the Philippines, to recognize native independence, and finally to guarantee the Filipinos that protection from foreign interference which is accorded under the Monroe doctrine to the lesser American republics. In both his Indianapolis and Topeka addresses the democratic presidential candidate struggled with specious sophistry to identify conditions and duties in the Philippines with those which have arisen through the fulfillment of this country's pledge to give stable government and liberty to Cuba. "Who will draw the line," the Nebraska leader exclaimed at Indianapolis, "between the natural rights of the Cubans and the Filipinos? And, ignoring the totally different relations in which Cuba stands to the United States through treaty pledges and legislative enactment, he shabbily demanded an application in the Philippines of that policy of nationalization which in Cuba has already taken definite and mutually satisfactory shape.

The parallel which Colonel Bryan seeks to institute between American obligations in Cuba and American obligations in the Philippines finds no support, of course, in either international law or common sense. It confuses political and international conditions in no way analogous. But even granted the force of the parallel, how does American experience in Cuba vindicate in advance the merit and value of Colonel Bryan's "easy, honest and honorable" program?

If the fusion nominee for president is elected, will he favor such a rapid withdrawal of American troops from the Philippines as has been effected from Cuba, and the convening thereafter of a native congress which shall erect an independent government under the protection of the United States? Is this native congress, also, as some of Mr. Bryan's admirers are already anticipating, to conclude a treaty "recognizing American control of Manila Bay and city, granting reciprocity of trade, and guaranteeing full liberty of American enterprise and investment?

The Philadelphia Record, though friendly to the general policy of expansion, has been trying, with many other eastern newspapers of pronounced democratic tendencies, to find some bridge to renewed partisan allegiance in Colonel Bryan's current crusade against "imperialism." Our Philadelphia contemporary is candid enough, however, to admit that the practical difficulties of carrying out any such scheme of Filipino independence as that outlined in the foregoing paragraph "would probably be as difficult as holding and governing the islands." As the Record argues,

"How many of the people of the eighty odd semi-civilized and savage tribes of the Philippines would be likely to consent to all this? Could majority of the tribal chiefs be induced to assemble at Manila? And before being asked to 'frame a constitution,' would not many of them have to be sent to school in order to learn what a constitution is? For some of them would come clothed in all the simplicity of breech-clouts, with intellectual equipment to correspond; not a few would bring patents of nobility won by capturing sixty heads in raids upon neighboring hostile tribes; there would be a startling confusion of both languages and interests, and the sight of Aguinaldo and his marauding Tagals might stir up animosities of long standing, and cause the convention to degenerate into a tribal battle. And if the American commissioners could accomplish the miracle of making peace between the hostile and scantily clothed fractions a majority of the chiefs would be more likely to consent to yield the bay and city of Manila and American coercion than Englishmen would be to yield the River Thames and the city of London. And how could we keep them permanently under our 'protection' without preserving order and preventing them from assaulting and depoiling each other?"

As an essay in practical statesmanship, getting the governed to consent to self-government in the Philippines, and then turning them loose on each other "under American protection," is not likely to appeal to either national foresight or self-respect. It is a solution of the Philippine problem neither "easy" nor "honest" nor "honorable"—one from which the more serious minded of Colonel Bryan's followers cannot be blamed for turning with disapproval and contempt.

FOUR GUessed THE NUMBER

C. W. Brooks' Novel Plan of Advertising Caused Intense Interest.

Four persons guessed the exact number of seeds in the pumpkin that has been exhibited of late in the window of the Brooks Cash Tea Co. The number of seeds were 875. The four lucky guessers are Mrs. Blunk, Mrs. Mattick, E. J. Ellis and Henry Gray. Two valuable jardiniers were offered for prizes to the two nearest guessers. There were 530 registered guessers. The four winners are requested to meet at the tea store Wednesday evening of this week.

EAGLE PICKS UP BOY.

Fraud Bird Strikes Wire and Makes Violent Flight.

Denver, Oct. 1.—An American eagle, with designs on a small boy who was sailing a toy boat in the fountain in the courthouse grounds, was balked of his prey by a telephone wire, and so shocked by coming in contact with it that the proud bird was made a captive.

The eagle was first seen far above the fountain. Then it began to circle round and round, dropping lower and lower, until it was not over thirty feet in the air. The boy was playing, unconscious of danger.

John Stoddard, a clerk in the county treasurer's office, had been watching the bird, and when he saw it furt its wings and drop, with talons extended, in swift motion toward the boy, he ran toward the fountain to give the little chap aid.

But in spite of the vaunted keenness of eye of the eagle, this particular bird had failed to notice a telephone wire which was stretched across the court house grounds. As the eagle dropped it struck the wire with terrific force, rebounded into the air, and landed in the water of the fountain, half stunned.

Stoddard grabbed the bird by the claws and neck, and then came a furious struggle between man and bird. But it was a brief one, for others came to Stoddard's assistance, the bird was firmly secured and sent to captivity in the city park.

The eagle measured eight feet from tip to tip of wings and weighed over fifty pounds.

A MODERN EDEN.

Remarkably Low Prices of Home Grown Food in Oklahoma.

There is no need to go to Europe for cheap living while Oklahoma exists. says Helen Churchill Candee in the September Atlantic. Distance from the large markets makes it the ideal place for housekeepers with a slender purse. All home grown foods of a perishable nature can be had for refreshingly low prices. Some of these I quote that I may make heads of eastern families groan with envy.

Watermelons, notwithstanding that several hundred freight cars of this juicy fruit roll northward to Kansas City, can be bought at any time from July to cold weather for 5 cents each and these of a size and sweetness unsurpassed. Muskmelons delicious as nectar are 5 cents a dozen, although these too, are sent away liberally in carloads. Spring chickens are 25 cents a pair; sweetbreads, 10 and 15 cents; beef and lamb, 15 cents a pound. Grapes—alas, this luscious crop is nearly given away—are a cent a pound for the best. The reason for this humble price attached to so fine a fruit is that the crop matures and is in its prime during the heat of August, and shipment is impossible except in refrigerator cars, which are too expensive. And so the whole population revels in delicious juice.

Sheep With Artificial Teeth.

A New South Wales correspondent of the Liverpool Journal of Commerce says that a pastoralist of Hargreaves, near Mudgee, has tried dentistry for sheep with great success. He had a valuable American ram which, found great difficulty in masticating its food owing to the loss of teeth. Artificial teeth were inserted, and the animal has since vigorously attacked its fodder. This is believed to be the first experiment of its kind in the colony.

NEGRO TERRORIZES A FARM COMMUNITY

BLACK MAN WITH A REVOLVER INTIMIDATES PEOPLE.

Sheriff Appleby and Deputy Roberts made a hasty trip to Hanover. The coon is found in the Woods and forced to surrender—spoils in his satchel.

Yesterday evening about half past five John Schoolcraft who lives with Will Finley, one and one-half miles southeast of Hanover, drove into the city looking for an officer to arrest a negro who was terrorizing the neighborhood.

Sunday afternoon Will Finley with his wife and daughter and John Schoolcraft drove to their pasture to salt the cattle. On the way to the pasture they met the negro who had been in that neighborhood for a day or two. They made some remark to the negro and went on to salt the cattle and thought nothing more of the meeting. After salting the cattle they started for home and after going a short distance they encountered the negro. He was waiting for them and as they drove up to him walked toward the wagon with his right hand behind his back.

The people in the wagon stopped to see what he wanted, and the next instant were looking down the muzzle of a large revolver held by the coon.

It was pointed directly towards Will Finley and was within a foot of his face. He tried to get out of range of the gun so as to be safe if it went off. The negro abused them for a minute calling them vile names and at the first opportunity Finley whipped up the horses and drove off leaving the negro in the field.

When they arrived at the house Schoolcraft stopped long enough to get his overcoat and started for town, arriving here about 5:30 o'clock. He looked for an officer on the streets, and then drove to the jail after the sheriff.

The sheriff was away on business and Schoolcraft saw Sam Brown the turkey who was in charge of the jail during the sheriff's absence. Brown had been very busy during the absence of the sheriff attending to the necessary work around the jail and the outside business connected with the office.

Having several important prisoners under his care he could not leave them to the coon. Schoolcraft then went to Undersheriff E. D. Robert and told him what he wanted. It was then getting late and Roberts told him that the sheriff would be home at 12 o'clock and as soon as he arrived the would go out and see if they could get the negro.

The sheriff arrived home from the north at 12 o'clock, and was informed of the affair. He immediately made arrangements to go to the place where the negro was last seen.

Turkey Brown thought the sheriff was tired out from his trip, and wanted to go in his place, but the sheriff insisted that he was all right to go, and left Brown in charge of the jail.

At 4 o'clock Sheriff Appleby and Under-sheriff E. D. Roberts started for the place where the trouble had occurred, and arrived at Finley's house about 4:30 in the morning. They aroused Finley, and he directed them to the place where he had last seen the negro.

Sheriff Appleby talked with Finley about the man, and from his description of him, came to the conclusion that he was the same negro that was wanted in Delavan and Lake Geneva for burglary, and also for breaking into J. J. McLay's place last summer.

Sheriff Appleby saw the man last year at Johnstown, but did not know of any charge against him until he returned home so let him go. He then learned he was wanted badly at several different places.

After ascertaining from Finley where he had last seen the man Appleby and Roberts drove into the woods near Finley's and after going a short distance saw a fire burning. They thought at once that this was the camp of the negro and approached the place cautiously. From the reports they had received of the man they expected that he would do almost anything if he discovered he was being hunted by the officers.

When they arrived within a few yards of the fire they saw the negro moving around and the sheriff told Roberts to drive a little to the right as he could have a good chance at the man in case he tried to shoot. They discovered the negro seated on a log a short distance from the fire, with two revolvers lying close at hand just to the left of him.

The sheriff jumped out of the buggy, and ordered him to throw up his hands, and at the same time covering him with his gun, "A Winchester repeater loaded with buckshot," the negro looked at the black muzzle for a second time and threw up his hands.

The sheriff did not like his looks and told him to get his hands up in the air, which he immediately did. During the time that Sheriff Appleby had him covered with his gun, Under Sheriff Roberts, had worked his way around behind the negro and making a rush on him pinioned his arms to his side.

The sheriff rushed up and put the handcuffs on him. He was loaded into the buggy and brought to the city and put into a cell in the Rock county jail.

The negro is a repulsive looking individual about six feet tall and weighing about 180 pounds and a powerful man. He had in his possession when arrested two revolvers and a grip in which was two watches, one metal and one gold, three razors, three looking glasses, three pair of new shoes, one pair bicycle socks, two gold pan holders, one jack knife, three pocket books, one suit of clothes, twenty cakes of soap, fifteen packages of tobacco, three razor straps and five new shirts, most likely the proceeds of numerous small jobs he has been connected with.

Sheriff Appleby, recognized the man

as soon as he saw him as being the negro he talked with in the woods near Johnstown last fall. He was also sent up from here for burglary in 1889.

The police think they have succeeded in getting a man behind the bars that is wanted in numerous places for different crimes. It was a lucky capture and a lucky thing for the coon that he put up his hands when he was told to.

SUDDEN DEATH OF PHYDELLO H. BUMP

DIES FROM THE SHOCK OF A DIFFICULT OPERATION.

Came to Janesville in 1888 and has since been engaged in the grain business—he was well known and leaves many friends—funeral Wednesday afternoon.

The announcement of the sudden death of Pydello H. Bump, which occurred yesterday afternoon at the Palmer hospital, has shocked a multitude of his friends and filled many hearts with sadness and sorrow.

Mr. Bump has been in poor health for a year, but was not seriously ill until about a month ago since which time he has been failing rapidly. A difficult operation was decided upon and he was taken to the hospital on Thursday of last week. The operation was successful but his strong constitution was weakened by sickness and the death angle claimed him for his own.

P. H. Bump was born in Toronto, Canada, in 1853 and was therefore 47 years of age. In his earlier life he was engaged in railroading being station agent at Jefferson for a number of years.

Coming to Janesville in 1888, since which time he had been engaged in the grain business. Since his father's death, two years ago, he had conducted the grain and feed business on High street, and by his straightforward, honest dealings, won the respect of all who knew him. Faithful in the least as in the greatest, he was a great comfort and solace to his widowed mother.

He was a practical, unostentatious man—his life spoke for itself, and he made friends for a lifetime, substantial and permanent.

He was an enthusiastic supporter of out door sports, and was much interested in field sports. He was a respected member of the Angleworm Club, and also of the Janesville Shooting Club. His death is a great loss for the members of both organizations and their heartfelt sympathy is extended to his bereaved family.

Besides a widowed mother, he leaves a widow and four children: Ross, Laura, Stella and Hazel; and one sister, Mrs. William Tallman of this city.

The funeral will be held from the new home, Washington street, Wednesday afternoon at 2 o'clock. The sympathy of the entire community is extended.

George Brinkhardt

George Brinkhardt of Oswego, Ill., thirty-five years of age, died at his home in that city Sunday, Sept. 28, of blood poisoning caused by a carbuncle. His wife is well known in this city being a daughter of Mr. and Mrs. Patrick Shields. Her sister Delia and brother Joseph went to Oswego Saturday to attend the funeral which was held yesterday. He leaves a wife and one son to mourn his loss.

FRIENDS SURPRISED PETER HAMMERLUND

About thirty-five friends of Peter Hammerlund surprised him at his home in Riverview Park Saturday evening and a very pleasant time was passed by the host and his unexpected friends. The guests made the affair a sort of basket picnic, each one bringing enough eatables to make a delightful spread. During the evening Mr. Carlson on behalf of the assembled guests presented Mr. Hammerlund with a fine parlor lamp, in a few well chosen words. The time was passed with games, music, etc., and the party broke up at an early hour in the morning.

FINN GOT 2 YEARS AT WAUPUN PRISON

John Finn, the forger that was arrested in Chicago some time ago by Marshall Appleby of Beloit for forgery committed in that city was brought up Saturday afternoon on petition and pleaded guilty to the charge of forgery. Judge Fifield of the municipal court sentenced him to confinement in the State Prison at Waupun for a period of two years, the first day to be solitary confinement.

THE Lewis Knitting company received an order this morning from Judge Wm. R. Day, president of the American Peace commission, and ex-secretary of state under President Wm. McKinley.

GEN. CHAFFEE TO WITHDRAW

To Remove Bulk of American Troops

FROM CHINA IN A FEW DAYS.

The General Is Now at Tientsin Directing the Movement—Small Force to Remain to Protect American Interests—Russians Invest Monukden.

Tien-Tsin, Sept. 29, Via Shanghai, Oct. 1.—Orders from Washington, directing the movement—Small force to remain to protect American interests—Russians invest Monukden.

The allied commanders had decided to dispatch combined land and naval expedition to Shan Hai Kwan on the gulf of Liao Tung, leaving Taku Oct. 1, the total land force being 4,200. The American detail had not yet been made, nor had a decision been reached as to the naval force. Now that the order to withdraw has been received from Washington, it is possible that the plans for the expedition will have to be modified, so far as American participation is concerned. General Chaffee, however, is proceeding on the opposite assumption and has ordered the Fifth marine battalion to prepare to go.

The United States armored cruiser Brooklyn will probably be the only American warship in the expedition. The troops will go by water, and be landed south of Shan Hai Kwan. They will co-operate with a large Russian contingent already on the way.

The news of the American withdrawal created a sensation among the representatives of the other powers here.

STANDING OF THE POWERS.

How the Nations Are Ranged on the Proposal of Germany.

Washington, Oct. 1.—The alignment of the powers on the German proposition to make the punishment of the Chinese ringleaders a condition precedent to negotiations may now be stated as follows:

Great Britain, Russia and France stand with the United States in regarding this proposition as inexpedient.

Japan occupies a middle attitude; she is willing to follow the German lead if all the other powers are agreeable, but only for the sake of preserving harmony among the powers.

Austria and Italy stand shoulder to shoulder with Germany, making the dreibund a solid front.

Nothing is known here officially of the alternative proposition which is reported to be preparing in Europe. If it contains the same feature as to prior punishment as the original proposition it is not likely to receive approval here.

The fact that Secretary Hay is expected to return to Washington this week will not change in any way the policy of the state department. The officials are impressed, and have been from the beginning, with the conviction that any attempt made to punish Prince Tuan before negotiations are undertaken will absolutely defeat all efforts to obtain a peaceable and satisfactory settlement.

STATE FAIR LOSES \$18,000.

Springfield, Ill., Oct. 1.—The state board of agriculture is \$18,000 to the bad as result of the rainy weather that prevailed all State fair week except Monday and Saturday. It will report at the January meeting of the board.

Nagasaki, Japan, Oct. 1.—The Norwegian steamer Calanda and the Japanese steamer Ise-Maru are reported to have been in collision off Iwoshima. The Calanda was sunk and 45 of her passengers and crew were drowned. The Ise-Maru put in at Iwoshima. The Calanda was a vessel of 865 tons register.

SCALDS WIFE AND KILLS SON.

Chicago, Oct. 1.—Mat Schneider, 37 years old, 101 Ward street, scalped his wife and then cut his own throat at his home. The man died from his injuries, but the woman is still alive at the German hospital, where she was taken by the North Halsted street police.

Driven Insane by a Joke.

Seattle, Wash., Oct. 1.—As the result of a practical joke Pearl Boyd, a pretty young girl of Nome, is now a raving maniac and her lover, Paul Laird, lies buried in a suicide's grave. Pearl was noted for her intrepidity and declared that nothing could frighten her. Laird determined to scare her and it is said cut the hand from the body of a dead Eskimo, which he found lying on the tundra. He took the hand and placed it in the girl's bed. When the young woman discovered it late at night her reason fled. With loud screams she sprang upon the bed and tore the hand to pieces with her teeth. Laird, who watched the scene from outside the window, fainted, and when he recovered put a bullet through his brain.

Noted Engineer a Suicide.

Chicago, Oct. 1.—W. T. Casgrain, for the last 15 years in the employ of the federal government as a civil engineer, committed suicide by inhaling gas in his room at the La Vita hotel. Last Saturday Casgrain registered at the hotel as W. H. Becker of Fort Wayne, Ind. A widow and two children are left. Mr. Casgrain had an office in the Monadnock building, and lived at 1026 Greenleaf street, Evanston. He was at one time one of the best-known engineers in the west. Recently he has been engaged in work at Fort Wayne.

FATAL WRECK ON SANTA FE.

TWO PERSONS MEET DEATH INSTANTLY.

AND FIFTEEN ARE INJURED.

Accident Happens Fifteen Miles South of Guthrie, O. T.—Smoker Turns Upside Down with a Crash—Rails Spreading Cause Disaster.

Guthrie, O. T., Oct. 1.—The northbound through passenger train for Kansas City on the Santa Fe road, due here at 4:45 o'clock p. m., was wrecked at Waterloo, a flag station fifteen miles south of here, and two passengers were killed and fifteen were more or less injured.

The killed are Thomas Mayer, Oklahoma City; Edmund Rock, Jonah, Texas.

The most seriously injured are: James Black, of Jonah, Texas, arm broken; Edward H. Cook of Oklahoma City, president of the National bank, badly cut about the head, and back injured; James Vandever of Ray county, Missouri, arm badly crushed, and his 9-year-old grandson, Roy, had his chest injured; probably fatal; C. T. Smith of Texas, hurt about head and body; J. S. Lyons of Guthrie, shoulder dislocated; George H. Willis, Guthrie, head cut and one ear almost torn off; John Wilkin, Chicago, cut by glass; R. Artman of Ray county, Missouri, bruised about the body; Thomas O'Neill of Derby, Kan., injured about the head.

The train left Oklahoma City forty-five minutes late, and was running at the rate of forty miles an hour, when Engineer John Rain felt a jar and found that the trucks of the tender had been broken. He reversed his engine and attempted to slow up the train. In a few seconds the baggage and express and mail cars were off the track, and a moment later the smoker was forced into the air by the momentum of the train behind. It toppled over and turned upside down with a crash. The day coach followed left the track, and then the whole train came to a standstill.

Thomas Mayer, a hardware salesman from Oklahoma City, was hurled to the roof with terrific force, and his skull was fractured. He was killed instantly.

Edmund Rock, a cattle buyer from Jonah, Williamson county, Texas, was buried half the length of the ear, and after being taken out started to walk, but fell over and died in a few minutes from internal injuries.

John Wilkin of Chicago was cut by glass. The injured were taken to Edmund and to this city as soon as possible. The accident was caused by the rails spreading.

Alleged Theft of City Water.

Chicago, Sept. 29.—Four true bills charging larceny of city water were voted against Superintendent Harry Boore of the Continental packing company by the grand jury. Each of the bills alleges a separate theft of water through the four-inch illicit main dug up by Superintendent Nourse three weeks ago—Aug. 16, 185,000 gallons; Aug. 29, 185,500 gallons, Sept. 5, 187,836 gallons; Sept. 11, 187,000 gallons. The price of the water is quoted at 10 cents for each thousand gallons.

Friends Bury Cattle Alive.

Upper Sandusky, O., Oct. 1.—A steer and a cow were missed from the farm of John Haas. The animals were not discovered until bawling was heard in a large straw stack under which they were buried by enemies.

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

Eternal Vigilance Is the Price of a Beautiful Complexion

when such remedies are relied on.

Mr. H. T. Shobe, 2704 Lucas Avenue, St. Louis, Mo., says: "My daughter was ill for years with disfiguring eruptions on her face, which required all treatment. She was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S. and by the time she had been using it the eruptions began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old, and not a sign of the embarrassing disease has ever returned."

S. S. is a positive, unfailing cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable.

Bad blood makes bad complexions.

SSS purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.

If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.

Cable Ship Runs Ashore.

Seattle, Wash., Oct. 1.—The steamer Ohio, arriving, brings news that the steamer Orizaba, engaged in laying a government cable between Nome and St. Michaels, went aground on an uncharted reef near the latter place Sept. 17. Gen. Greely, chief signal officer, arrived on the Ohio. He was on board the Orizaba at the time of the wreck, and says the vessel will be saved unless a sudden storm intervenes.

The steamer Senator started at once from Nome to take off the crew and cargo, including the government cable. The laying of the cable will be postponed until next season. The Ohio brought down 500 passengers.

Death List of Riot Swells.

Cleveland, Oct. 1.—The shooting affray between union and nonunion molders has resulted in two more deaths. The victims are Henry Cronenberger and William Steffield, who died today. Cronenberger was a union molder. Steffield was a bricklayer and had no part in the fight. Charles Peck, a nonunion man, is under arrest charged with the murder of Detective Foulks, who was shot through the heart. Paul Irving, Thomas Jennings, Edgar McIntyre and Willis Webster, also nonunion men, were arrested on the charge of shooting with intent to kill.

Defaults on Peru Loan.

Lima, Peru, Oct. 1 (via Laredo Junction, Tex.).—There is much excitement here over the fact that one of the Paris houses on which ex-Minister of Finance Velaunde drew for about 500,000 francs to be used in part payment for arms purchased in Belgium has failed to meet the first bill due and cannot meet the others maturing yesterday.

The ministers of finance and war have resigned their portfolios and the cabinet is still incomplete.

Bank Teller Arrested.

Newark, N. J., Oct. 1.—Charged with having fraudulently altered the accounts in the ledger of the Dime Savings institution, where he was receiving teller, Robert Hensler, a nephew of one of Newark's millionaire brewers, was locked up at police headquarters. It was learned that two complaints charged Hensler with having altered the accounts of Annie Reiff and the Knights of Pythias, with intent to defraud.

Comes in Filipino Cause.

GUIDE FOR RAILWAY EXCURSIONISTS

Cleanest in America.

The Lackawanna Railroad is the cleanest railroad in America. Even though it cared little for the comfort of its passengers, which it does, it probably would burn hard coal, for the reason that it owns the most extensive anthracite coal mines in Pennsylvania, and it is cheaper for it to burn hard coal, which makes no smoke, than soft. At any rate, there is no smoke from its locomotives. It is built for the most part through the mountains where rock is the material easiest of access, and its road-bed for that reason is rock-ballasted. There is therefore, no dust. These two things are of unusual interest to the traveler by the line, for the reason that on no other road in the United States is there stronger incentive to keep one's eyes upon the passing scene. It is said of this line truthfully that every mile is picturesque. It traverses the agricultural region of Western New York, the valley region of Central New York, the mountain region of Pennsylvania and New Jersey, and every mile offers a view that is beautiful, interesting and entrancing. In point of comfort its passengers are particularly fortunate, for, in addition to there being no smoke or dust, the cars are roomy and scrupulously clean. Sleeping cars, parlor cars and dining cars offer all the conveniences and comforts of modern travel.

CHINA'S ODD VAGRANTS

Interesting Facts About the Empire's Beggars and Thieves.

GREAT NUISANCE TO FOREIGNERS.

How They Are Controlled by "Kings of China," Who Thrive on Their Tribute—Beggars' Horrible Method of Blinding Themselves—The Lepers of China.

Beggars, thieves and lepers in China have a certain place in the public affairs of the empire which is now the seat of international interest. They are controlled by no laws except those made by the "king of each clan," and as vagrants they are allowed to roam where they will. Like other classes of people in China, they are formed into guilds, the most powerful having headquarters at Nankin. In Peking and Tien-tsin also fraternities of these degenerates are a great nuisance to foreigners.

The beggars in Peking and other large Chinese cities are divided into two or more districts, each of which is presided over by an official head called the "king of beggars." The so-called "king" receives a large percentage of all the charitable gifts made to his subjects and also demands enormous sums from the shoppers and from merchants who wish to keep beggars out of their shops. In this way the "king" becomes wealthy. He usually lives in the best of Chinese dwellings and commands the respect of his fellow men.

There are many frightful sights among Chinese beggars, as they often maim and disfigure themselves in order to excite the sympathy of passersby. In this respect they resemble the Italian beggars, who are noted for maiming and crippling themselves to become better beggars. Many of the Chinese beggars are blind, having themselves destroyed their sight. A man will put a live cockroach in his eye and then bind it up securely. The insect will eat out the eye entirely, and the man will then go out to beg. Frequently these horrible looking men go around in droves. In fact, on certain days of each year they may be seen in gangs of 100 or 150. When they go around in large numbers, it is their purpose to demand alms from the shoppers and merchants, and upon these occasions the "king" receives much tribute, for the shop owners will gladly pay to him the required sum if he will only forbid any of his subjects to enter their stores. Should a drove of these beggars go into a store there would be little stock left when they vacated it.

They are always persistent and seldom cease to annoy you until some contribution has been made. A state department official at Washington recently told a New York Tribune reporter how a Chinese beggar girl followed

him for nearly half a mile and merely touched the end of his coat, not once speaking to him. He said the touch was so soft and gentle that it was barely noticeable, but it was repeated until he was compelled to give her a coin.

Thieves in the large Chinese cities are also divided into districts and controlled by a so-called "king of the thieves." The "king" knows everything that goes on in his district. He knows just where the stolen articles are and by whom they were stolen. A new thief could not come into a district without the "king" knowing of it and having him brought immediately under control. The "king of the thieves" gets a large percentage of all property stolen by his subjects. Chinamen are skillful pickpockets and do not hesitate to rob any one who passes by. When a foreigner is robbed, the money or property is generally returned. He must first make complaint to the local magistrate that the property has been stolen. The magistrate will then send for the "king of the thieves" and demand that the stolen articles be returned. "I don't know anything about it" is the usual reply. The magistrate then has the "king" soundly thrashed, and he brings back the stolen goods. Of course he has to be rewarded for the recovery, and the owner must pay to him a nominal sum of money. In case a native is robbed it is almost impossible to recover stolen property, for neither the magistrate nor the "king" will listen to the complainant.

Every Chinese city has a leper house outside its gates, and most of them have two or more. As in the cases of the beggars and thieves, there is an executive head called the "king of the lepers," who controls all lepers and makes rules and compact, which must be observed. These unfortunate are numerous throughout the empire. When in the first stage of the disease, they are brought to the leper houses. Good care is taken of them as long as their relatives can meet the demand of the "king." But no matter how wealthy their families may be the "king" eventually drains them of every cent, and both the leper and his relatives often have to turn beggars. The poorer lepers are assigned to miserable, nucleated huts providing poor shelter against bad weather.

These classes of people have been a great drawback to China for many years, and missionaries have devoted much time in trying to break up the clans.

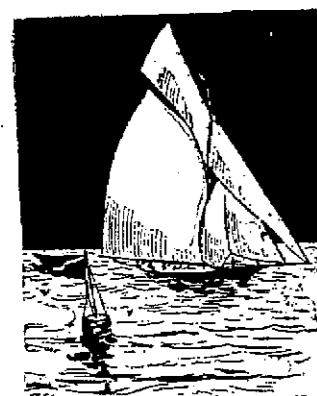

"New" Potatoes.

The potato, hitherto grown as a tuber underground, is now being produced like fruit from the stem of the plant. The flavor of these really "new" potatoes is excellent.

"Telephone Ear."

"The telephone, ear" is a new disease. It affects girls who habitually attend to telephone calls, and the symptoms are a frequent buzzing in the ear and abscesses on the drum.
